

Winter Escape Québec

Einzigartig in seiner Geschichte, Sprache und Kultur ist Québec eine Region, wo die Alte und die Neue Welt aufeinandertreffen. «La Belle Province», wie Québec auch genannt wird, kombiniert Tradition und Moderne mit ansteckender Lebensfreude! Gerade im Winter versprüht diese Region einen ganz eigenen Charakter und zieht die Besucher in seinen Bann. Dieses Winterprogramm erlaubt Ihnen, das Beste, was die Region zu bieten hat, zu entdecken! Faszinierende Städte, eine breite Vielfalt an Aktivitäten in der weiten Natur sowie eine märchenhaft anmutende Winterlandschaft. Dazu Übernachtungen in Unterkünften, die alles andere als gewöhnlich sind! Sie verbringen mehrere Nächte inmitten der Natur und haben die Möglichkeit, Winteraktivitäten wie Schneeschuhwandern, Eisfischen und Hundeschlittentouren auszuüben. Ein Highlight ist sicher auch ein Helikopterflug über die verschneite Landschaft und ein Aufenthalt im St-Félicien-Wildlife Zoo.

Internetcode: OCA053406

Tag 1: Ankunft in Montréal Pick-up your vehicle and rendez-vous in the thrilling and appealing city of Montreal! Second French speaking city in the world after Paris, Montreal combines old world influences with North American modernity in a very unique way. Enjoy its fine restaurants, rich museums, underground shopping districts and exhilarating nightlife!

Tag 2: Montreal - Trois-Rives (227km) After a good night's sleep and a hearty breakfast, the moment has come to leave the big city and to continue on toward some much wilder territories. The Eco-chalets allow you to stay in cozy green buildings located in the heart of a magnificent wildlife reserve. Built without nails in the spirit of sustainable development, each Éco-chalet is made of Québec grown Balsam fir and has been treated with

water based varnish. The wood stoves are EPA approved and a minimum of trees had to be cut during the building process. The Eco-chalets are fully equipped with a kitchenette, a complete bathroom and electric heating. Breakfasts are taken in the Eco-chalets (self-service). As for dinners, a caterer delivers them directly to your Eco-chalet.

Tag 3: Trois-Rives Today you'll take part to an exhilarating educational adventure in the heart of the Canadian forest! The activities take place in the beauty of the Canadian forest. On the program: snowshoeing excursion with a modern day's trapper, ice fishing on the lake and river, etc.

Tag 4: Trois-Rives - St-Félicien (282km) Back on the road heading now toward Québec's inland sea: the Lac St-Jean. You'll then have the opportunity to make an unforgettable visit at the famous St-Félicien Wildlife Zoo. This is the ideal place to observe animals of the boreal forest in natural habitats.

Tag 5: St-Félicien - Saguenay (126km) You will take the road to the Saguenay region, famous for its majestic fjord. The Saguenay Fjord is of striking beauty with its dizzying headlands, in the hollow of which runs the Saguenay River. This glacial valley is composed of numerous parks and offers the possibility of carrying out activities such as kayaking, sailing or hiking. You will also discover on the spot many small picturesque villages. Overnight at the Auberge des Battures.

Tag 6-7: Saguenay - Sacré-Coeur (110km) In the vicinities of the legendary Saguenay Fjord, you will spend the next 2 nights in a cozy yurt overlooking the majestic Saguenay fjord. On the program: Half a day of guided dog sledding. You'll then learn how to drive the sled yourself with the help of a professional guide, also known as a "musher." A traditional method of transportation in the Great North, the dogsled was integral to the Inuit and Amerindian lifestyle, and later adopted by the fur traders, missionaries and gold prospectors to travel through the forests. Set off with your dog team on virgin trails. Feel the wind pummel your cheeks in the silence of nature, broken only by the panting of the huskies and malamutes racing ahead at full throttle. Québec is the perfect place to try your hand at this one-of-a-kind activity: wide open spaces abound, and your canine companions are in their element!

Tag 8: Sacré-Coeur - La Malbaie (135km)

Continue on toward the Charlevoix region. Standing majestically in all its glory between the sea and the mountains, the Manoir Richelieu has been attracting visitors for over a century. Its rich hospitality tradition allies the peaceful charm of the nature to the elegance of a world class resort.

Tag 9-10: La Malbaie - Quebec City Region (222km)

Climb aboard our helicopter, eyes wide open. This is your chance to have a unique perspective on the King of the boreal forest: The Moose. Because of a helicopter tour, you will see a unique flight adventure over part of Québec's

wilderness. Just 30 minutes from Québec City, you'll fall under the spell of a vast mountainous plateau cut by deep valleys. Parc national de la Jacques-Cartier is host to one of the most beautiful glacial valleys in Québec. You'll then stay in a cozy cabin located in the heart of this outstanding environment.

Tag 11-12: Quebec City Region - Quebec City (87km) Rich in culture, history and beauty, Quebec City has the appearance and the atmosphere of an old-world town. Indeed, its old section has kept its historic character and a "Vieille France" charm.

Tag 13: Quebec City - Montreal (260km) Back in Montreal, take advantage of the city's countless shopping opportunities or visit some of its rich museums. Return your vehicle at the airport.
